**Work description.**

Inspector: Victor Altamirano (8 hours reg. and 5 hours OT)

Date: 040412

Weather: Sunny / 54 deg.

**Field Work –**

CT / ABF continued to work together to splice slacked wires on the south side span. Late morning it was found that a wire broke near a floating clamp at the west end on the south side span. The same procedure was applied to splice the wires together.

Note that ABF transmitted transmittals for the spliced wires in PMIV.

Office work: Worked on diaries.
